SkyTeam Alliance selects Goldenware Travel Technologies for Electronic Timetables

Flight Schedules on the latest electronic platforms Available to SkyTeam Customers

Nashua, NH (September 5, 2004) – SkyTeam, which continues to focus on customer benefits, has selected Goldenware Travel Technologies LLC to publish flight schedules for the member carriers. The SkyTeam Travel Timetables deliver leading edge mobility solutions on a wide range of electronic platforms. The travel timetables exhibit the breadth of the SkyTeam Alliance global reach and provide itinerary planning features enhancing the experience of SkyTeam customers.

The first set of products to be delivered will provide current, interactive mobile electronic versions of SkyTeam Alliance member flights. These solutions will initially be available for the Pocket PC and Palm OS platforms as well as Windows based Personal Computers.

In a statement, SkyTeam said, “We are excited to provide SkyTeam customers with another valuable travel planning tool that they can use on their favorite device. Goldenware’s proven track record in creating innovative technological solutions enables us to provide our customers with powerful tools that display the frequency, flexibility and global breadth of the SkyTeam Alliance.”

Matthew Goldworm, President of Goldenware Travel Technologies says, “By offering Goldenware’s leading edge solutions and the flight schedules from the Alliance members, SkyTeam’s global business traveler will now be able to access flight schedule information 24/7 from anywhere they want on their platform of choice.”
